

REPORT ON

DEPLOYING TATA STEEL's R&D ALGORITHMS AT CORUS

By:
M. SHOAIB JAMEEL
Bachelor of Technology (B.Tech),
Department of Computer Science and Engineering
Sikkim Manipal Institute of Technology, Sikkim

Under the supervision of
Mr. Fredi B. Zarolia
Senior Manager, IT
New Initiatives
Information Technology Services
TATA STEEL LIMITED

Acknowledgements

The project undertaken is not an individual's effort but a result of constant supervision and guidance of many attached with the process in one way or the other. It is my honest admission that I could not have completed this project without the assistance of the people whom I mention below. I am extremely indebted to the company, **TATA STEEL LIMITED**, for providing me with the much-wanted corporate revelation, adding finesse to the technical acumen.

Firstly, my sincere thanks to the staff at **S.N.T.I** and **Mr. B.V. Vinod Kumar, Sr. Manager (A.B.T.)**, who gave me an opportunity to work as an intern at Tata Steel.

One name that deserves special mention is **Dr. M. Murugananth, Researcher R&D and Former Professor at Nanyang Technological University, Singapore**, who is leading this project from front. I am profoundly overwhelmed with this knack in GNU/Linux. He has already created a special place in my heart and has left a deep impact in my life.

My special thanks to **Mr. Indraneel Mazumder, Sr. Manager – New Tech & Project Planning** and **Mr. Ashutosh Kumar, Manager IT**, who were the advisors in this project.

Thanks to **Mr. Bhasker Joshi, Solution Specialist – Applications, Microsoft India**, and **Mr. Arjun Bahree, Architect Advisor, Developer & Platform Evangelism, Microsoft Corporation**, for giving valuable insights and throwing some of their ideas into the project.

Mr. K. Krishna Raju deserves a lot of appreciation in this project. He played an instrumental role in developing windows based web services. His proficiency in developing windows based applications is commendable. His sterling effort in this project is treasured.

I **thank my parents** for their love and support. I must acknowledge that whatever I have attained until this day is the result of their hard work. I also **thank the teachers of my school**, who played a vital role in shaping my career. They are the ones who had inculcated in me the habit to dream and renovate those dreams into realism. In

addition, thanks to **my college teachers**, who have instilled in me the spirit of competitiveness.

Finally, all credit goes to my **project guide Mr. Fredi B. Zarolia**, who not only was a foundation of inspiration for me but also instilled in me the craving to do better in life. His foremost intention was to ensure that I am not deprived of an opportunity to learn something new during the course of this project.

M. Shoaib Jameel
Trainee
Jan – May 2008
Tata Steel Limited
Jamshedpur

Certificate

This is to certify that **M. Shoaib Jameel** of **Sikkim Manipal Institute of Technology** has worked under my supervision and guidance from *21st January, 2008* to *20th May, 2008* and has successfully completed the project entitled “**Deploying Tata Steel’s R&D Algorithms at Corus**”. His conduct during the duration of the training was good. I wish him best of luck for future endeavors.
